How it works in Laravel: The tenants table has a type column (school / college / university) and a tenant_modules pivot table. Each module has an is_enabled flag per tenant. Middleware checks tenant->hasModule('semester_gpa') before allowing route access. Super admin dashboard controls all module activation and custom pricing per tenant.

Dashboard

Main overview with KPIs, real-time charts, attendance, employee and fee insights

19

widgets

All institution types

WIDGET / FEATURE	DESCRIPTION	TYPE
Admission Queries Counter	Live count of pending admission queries with this-month comparison	KPI Card
Active Students Count	Total enrolled active students with monthly additions	KPI Card
Fee Plans Summary	Total fee plans created, plans not yet assigned to students	KPI Card
Unpaid Challans	Count of unpaid challans with monthly breakdown	KPI Card
Daily Income & Expense Insight	Bar chart showing daily fee income vs daily expenses over the month	Bar Chart
Unpaid Amount Total	Running total of all outstanding/unpaid fee amounts across all students	KPI Card
This Month Paid Amount	Total collected fee revenue for current month with type breakdown	KPI Card
New Admissions Chart	Bar chart of new admissions over the last 12 months	Bar Chart
Inactive Students Chart	Bar chart of students who became inactive over last 12 months	Bar Chart
Student Strength Summary	House-wise and class/section-wise total student counts with chart	Bar Chart
Student Attendance Overview	Pie/donut chart showing present, absent, leave, late counts for today	Pie Chart
Student Birthday Tracker	Today / week / month filter for students with upcoming birthdays	List Widget
Complaints & Suggestions Graph	Donut chart showing open vs resolved complaints count	Donut Chart
Student Fee Discount Distribution	Visual breakdown of discount types applied to students	Chart
Employee Report Summary	Total, active, and inactive employee counters	KPI Card
Employee Attendance Breakdown	Staff attendance summary with date range filter and chart	Chart
Employee Approvals Widget	Pending salary plans, increments, leaves, advance salary needing approval	Action List

Mobile Apps Section	Quick links to download Owner, Teacher, Parent, QR, SMS apps	Links
News Feed	System updates and announcements from the platform / super admin	Feed

Admissions & Fee Management

Complete student enrollment and challan/payment lifecycle

17

features

All institution types

FEATURE	DESCRIPTION	CATEGORY
STUDENT MANAGEMENT		
Admission Queries	Track prospective student inquiries, follow-up status, source tracking (walk-in, referral, online)	CRM
Manage Students	Full student profiles: personal, guardian, academic, contact, photo, documents	Core
FEE PLANS		
Create Fee Plans	Design fee structures with particulars, amounts, repeat months, due dates	Fee
View / Edit Fee Plans	Manage existing plans, update amounts, assign to campus-class	Fee
CHALLAN GENERATION		
Generate Challan	Bulk or individual challan generation for enrolled students per month/period	Challan
Generate Challan Installment Wise	Split total fee into installments and generate separate challans per installment	Challan
Add Amount in Generated Challan	Manually add extra charges or fine to an already generated challan	Challan
PAYMENT COLLECTION		
Pay or Print Fee Challans	Collect payment at counter and generate printable challan receipt for bank/manual	Payment
Direct Payment	Accept direct cash/bank payment without a pre-generated challan	Payment
Family Wise Payment	Pay fees for all siblings in a family in one single transaction	Payment
Paid Challans	Searchable list of all paid challans with date, amount, method filters	History
Challan Discounts	Apply discounts to challans by type (sibling, merit, staff child, scholarship)	Discount
Payment History	Full transaction history per student with date, method and collector	History

REPORTS		
Detail Fee Report	Per-student detailed fee status with pending and paid breakdown	Report
Day Wise Paid Challans	Daily collection summary report for accounting reconciliation	Report
Class Wise Fee Particular Report	Fee breakdown by class level and particular type for analysis	Report
Fee Defaulters Total Amount	List all students with outstanding dues with cumulative total amount	Report

Extras (Student Tools)

Batch operations, certificates, QR codes, bulk import and non-enrolled student tools

17

features

All institution types

FEATURE	DESCRIPTION	CATEGORY
ACTIVE STUDENTS		
Print Fee Reminder	Generate and print fee reminder notices for defaulter students	Print
All Students	Complete searchable and filterable list of all students across all classes	List
Batch Transfer / Promote Students	Promote an entire class to next grade or transfer between sections in bulk	Batch
Print Certificates or Date Sheets	Generate completion certificates and exam date sheets for printing	Print
Certificates Logs	Track all certificates issued with date, student and issuing officer info	Log
Add Bulk Students	Import multiple students at once via CSV/Excel spreadsheet upload	Import
Students By User	View students added/managed by a specific admin or operator account	Filter
Student QR Code	Generate unique QR codes for student identity cards and QR attendance	QR
Date Sheet	Create and publish exam timetables / date sheets per class or campus	Academic
Roll No. Slip	Generate and print roll number slips for exams with student details	Print
Student Yearly Fee Increment	Apply annual fee increase as percentage or fixed amount across all or filtered students	Fee
NOT CURRENTLY ENROLLED / ALUMNI STUDENTS		
View / Edit Fee Plans	Manage fee plans for alumni or deactivated/transferred students	Fee
Generate Challan	Generate outstanding dues challans for students no longer enrolled	Challan
Pay or Print Fee Challans	Accept payments from non-enrolled/alumni students with printed receipts	Payment

Paid Challans	View complete payment history for non-enrolled students	History
Payment History	Full payment records for all alumni and inactive student accounts	History

Finance (Accounting / GL)

Full double-entry accounting with GL, journal entries, trial balance, P&L and balance sheet

15
features

All institution types

FEATURE	DESCRIPTION	CATEGORY
CHART OF ACCOUNTS SETUP		
Accounting Periods	Define fiscal periods/years to set financial reporting boundaries	Setup
GL Groups	Organize accounts into asset, liability, equity, income, expense groups	Setup
GL Accounts	Create and manage individual general ledger accounts with codes	Setup
Chart of Accounts	Visual tree view of all accounts organized by group and type	Setup
TRANSACTIONS		
Journal Entry	Manual double-entry journal vouchers with debit/credit lines and narration	Transaction
Add Expense	Record school/college operating expenses with account mapping	Transaction
Add Other Income	Record non-fee income sources (canteen, events, donations, grants)	Transaction
INQUIRIES & LEDGERS		
Journal Inquiry	Search and review all journal entries with date/account/status filters	Inquiry
GL Inquiry	View all transactions posted to a specific general ledger account	Inquiry
General Ledger	Full ledger with opening balance, period movements, and closing balance	Ledger
FINANCIAL STATEMENTS		
Trial Balance	Debit/credit trial balance across all accounts for a selected period	Report
P & L Statement	Income vs expense profit & loss statement by accounting period	Report
Balance Sheet	Assets, liabilities and equity balance sheet snapshot at any date	Report

Cash Report	Daily/period cash inflow and outflow summary with running balance	Report
Voided Transactions	View and audit all reversed or voided journal entries with reason	Audit

Exam & Attendance

Marks entry with SMS, student attendance tracking, communication and notification reports

18

features

All institution types

FEATURE	DESCRIPTION	CATEGORY
EXAMINATION		
Add Marks and SMS	Enter exam marks per student per subject, auto-send result SMS to parents	Marks
Update Marks and SMS	Edit/correct already entered marks with option to re-send updated SMS	Marks
View Marks and SMS	Review entered marks and SMS dispatch status per student and class	Marks
Examination Reports	Result cards, class performance reports, subject-wise analysis charts	Report
STUDENT ATTENDANCE		
Take Attendance	Mark daily attendance class-by-class with present/absent/leave/late status	Attendance
View / Update Attendance	Review and edit attendance records for any past date by class	Attendance
Absentees	Quick view of all students absent today across all classes and sections	Attendance
Attendance Sheet	Monthly attendance grid printable sheet per class for records	Print
ATTENDANCE REPORTS		
Combine Attendance Report	Multi-class combined attendance summary for a selected date range	Report
Individual Attendance Report	Per-student attendance history with percentage and status breakdown	Report
Attendance Summary	Campus-level attendance overview with statistics and trends	Report
COMMUNICATION		
SMS Blaster	Send bulk SMS to all parents or filtered groups (class, section, defaulters)	SMS
SMS Report	Delivery status and full history of all SMS messages sent by the system	SMS

Family SMS Report	SMS log organized by family/guardian contact number	SMS
App Notification Report	Track push notifications sent through the parent mobile app with read status	Notify

HRM (Human Resource Management)

Employee lifecycle, attendance, salary plans, leave requests and approvals

23

features

All institution types

FEATURE	DESCRIPTION	CATEGORY
MANAGE EMPLOYEES		
Manage Employees	Full employee profiles: personal, qualifications, documents, job info, photo	Core
Manage Time In/Out	Manual or QR-based time-in/out recording for all staff members	Time
Assign Classes	Assign teachers to specific classes/subjects for timetable management	Assignment
ATTENDANCE		
Take Attendance	Mark employee daily attendance with present/absent/leave/late status	Attendance
View / Update Attendance	Edit and correct staff attendance records for any past date	Attendance
Monthly Attendance	Month-wise attendance summary grid for each employee	Attendance
ATTENDANCE REPORTS		
Combine Attendance Report	All-department combined attendance for a selected period	Report
Individual Attendance Report	Per-employee detailed attendance history with percentage stats	Report
Employee General Attendance Report	Campus-wide employee attendance overview with filters	Report
APPROVALS		
Salary Plan Approval	Review and approve new salary plan proposals submitted by HR	Approval
Increment Approval	Approve salary increment requests with effective date and reason	Approval
Advance Salary Approval	Process and approve advance salary requests from employees	Approval
SALARY MANAGEMENT		

Create Salary Plan	Define salary structure with basic pay, allowances, and deductions per employee	Salary
Update Salary Plan	Modify existing salary plans and push changes to calculations	Salary
Calculate / Generate Salary	Auto-calculate monthly salary based on attendance, plan, leaves and advances	Salary
Pay / Print Salary	Process salary disbursement and generate printable payslips	Salary
Employee Salary Report	Monthly salary report across all employees filterable by department	Report
Security / Personal & Resume	Manage employee documents, security clearance, and resume on file	Docs
EMPLOYEE EXTRAS		
Employee Notice Board	Post announcements visible to all or specific staff groups/departments	Comm
Leave Approval	Review, approve or reject employee leave requests with workflow	Leave
SMS Report	SMS messages sent to employees with delivery status and history	SMS

GH

General & House Management

Notice board, PTM, complaints, student diary, house system — school-specific

School K-12 only

10
features

FEATURE	DESCRIPTION	CATEGORY
Complaints / Suggestions Report	View, track and manage complaints submitted by parents and students	Comm
Notice Board	School-wide notice board visible to all roles — admin, teachers, parents	Comm
PTM (Parent Teacher Meeting)	Schedule, manage and record parent-teacher meeting sessions with notes	Meeting
Student Leave Approval	Process student leave requests with guardian verification workflow	Leave
Parent App Analytics	Track parent app usage, logins, notification open rates per campus	Analytics
Student Diary	Daily homework and school announcements diary delivered to parents via app	Academic
App Links	Quick access links to all mobile app downloads for staff and parents	Links
House Management	Create and manage school houses (e.g. Red, Blue, Green, Yellow houses)	House
Student Strength by House	House-wise student count and distribution charts for competition tracking	House
Student List by House	View all students organized and filtered by their assigned house	House

8. Core / Institution Setup

Campus structure, sessions, fee policies, discount types

[All institution types](#)

SETTING	PURPOSE
City	Define cities for campus location references and reporting
Campus	Add and manage school/college/university campuses and branches
Classes	Define class levels (Nursery, KG, Grade 1–12, Year 1, Semester 1, etc.)
Campus–Classes Mapping	Assign which classes/programs are offered at each campus
Sessions	Create academic year sessions (e.g. 2024–2025, Fall 2024)
Manage Sessions in Classes	Assign active sessions to class offerings per campus
Services	Define extra services (transport, canteen, lab, sports, etc.)
Discount Types	Define discount categories (sibling, merit, staff child, scholarship, etc.)
Late Fee Fine Policy	Configure daily or flat fine amount applied for late fee payment
Student Attendance Fine	Set automatic fine for students below minimum attendance threshold
Fee Plan List	Master list of all active and inactive fee plans across the institution
Fee Plan List in Campus	Campus-specific fee plan assignments and overrides
Fee Particulars	Define individual fee heads (tuition, exam, lab, sports, hostel, etc.)
Fee Particulars in Fee Plan	Map fee heads to specific plans with monthly amounts
Particulars Amount & Repeating Months	Set which months each fee particular is charged (e.g. annual exam fee in March only)

9. Admission Settings

Lookup/reference data for student registration forms

[All institution types](#)

SETTING	PURPOSE
Guardian Relations	Define relationship types (Father, Mother, Uncle, Guardian, etc.)
Grades	Academic grade levels used in grading reports and certificates
Manage Nationality	Nationality options available during student registration

Manage Religions	Religion options for student and employee profiles
Madras / Board League	Configure board/league affiliations for the institution
Student Group / Category	Custom student groupings for reporting and fee discounts

10. Exam Settings

Subjects, grading policies, test types, shifts, SMS templates

[All institution types](#)

SETTING	PURPOSE
Subject Groups	Group subjects by category (Sciences, Arts, Commerce, Islamic, etc.)
Subjects	Master list of all academic subjects offered by the institution
Subjects in Classes	Assign subjects to specific class levels for scheduling and marks
Test Types	Define test categories (Monthly, Mid-Term, Final, Quiz, Assignment, etc.)
Grading Policy	Configure grade thresholds (A+ = 90–100%, A= 80–89%, etc.) institution-wide
Class Grading Policy	Override grading policy for a specific class or program if needed
Manage Shifts	Define morning / afternoon / evening school or class shifts
SMS Templates	Pre-written SMS message templates for result and exam notifications
Manage Standings	Define academic standings (Pass, Fail, Distinction, Promoted, etc.)
Manage Dates	Set important academic calendar dates for holidays and events

11. HRM Settings

Departments, designations, allow ances, employment types

[All institution types](#)

SETTING	PURPOSE
Employee Form Customization	Customize which fields appear on employee registration forms per tenant
Manage Print Template	Configure payslip and HR document print templates with logo
Allowances and Deductions	Define salary allowance types (house rent, medical) and deduction heads (EOBI, tax)
Manage Departments	Create departments (Teaching, Admin, Support, Finance, etc.)
Manage Department Groups	Group related departments into higher-level divisions
Manage Designations	Define job titles (Principal, Head Teacher, Accountant, Librarian, etc.)
Manage Employment Types	Full-time, part-time, contract, visiting faculty, probationary types

Manage Shifts	Employee work shift timing configurations for attendance
SMS Templates	SMS templates for employee alerts, payslip notifications
Lock / Update Attendance	Lock attendance records after payroll processing to prevent changes
Manage Standings	Employee performance standing definitions for appraisals

12. Configuration & System

Users, roles, permissions, integrations and system-level settings

All institution types

SETTING	PURPOSE
Users & Privileges	Create admin/operator accounts and assign granular role-based permissions
SMS Gateway Settings	Configure SMS provider API credentials, sender ID, and balance alerts
Manage Conferences	Setup video conference links for PTM sessions and virtual meetings
User Logging	Full audit log of all user actions, logins, and changes within the system
Browser Awareness	Alert users about supported browsers for best system experience
License Awareness	View software subscription details, expiry, and renewal information
Attendance Announcer / Auto	Automated attendance notification trigger settings and schedules
Challan Services	Configure challan print format, bank details, and payment instructions
WhatsApp Service	Connect WhatsApp Business API credentials for parent notifications
Subscriptions Management	View and manage platform subscription plan, add-ons, and billing

Semester & GPA System

Semester-based academic structure with credit hours, GPA calculation, CGPA tracking and transcripts

College

University

Optional paid add-on

14 features

FEATURE	DESCRIPTION	CATEGORY
PROGRAMS & COURSES		
Manage Programs / Degrees	Define degree programs (BS Computer Science, MBA, MSc, etc.) with duration and credit hours	Programs
Manage Courses	Define courses/subjects with credit hours, pre-requisites, and course codes	Courses
Semester Management	Create and manage semesters (Fall 2024, Spring 2025) with start/end dates	Semester
Course Offering per Semester	Define which courses are offered in which semester by department	Semester
STUDENT ENROLLMENT		
Course Enrollment	Students enroll in courses each semester, with seat limits and pre-requisite validation	Enrollment
Drop / Add Course	Allow students to drop or add courses within enrollment window period	Enrollment
Enrollment Approval	Admin or advisor approves student course selections before confirmation	Approval
GRADING & GPA		
Enter Grades per Course	Faculty enter letter grades (A, B+, C, etc.) or marks per student per course	Grades
GPA Calculation	Auto-calculate semester GPA based on credit hours and grade points (4.0 scale)	GPA
CGPA Tracking	Cumulative GPA calculation across all completed semesters per student	GPA
Grade Point System Config	Configure grade-to-point mapping (A=4.0, A-=3.7, B+=3.3, etc.) per institution	Config
REPORTS & DOCUMENTS		
Semester Result Card	Generate per-semester result cards with GPA, pass/fail status per course	Report
Official Transcript	Generate official academic transcripts with all semesters, CGPA and degree progress	Report

Hostel Management

Room allocation, hostel fee, mess management and warden reports

12

features

College

University

Optional paid add-on

FEATURE	DESCRIPTION	CATEGORY
HOSTEL SETUP		
Manage Hostel Blocks	Define hostel buildings/blocks (Boys Block A, Girls Block B, etc.) with capacity	Setup
Manage Rooms	Add rooms to each block with type (single, double, triple), bed count, and floor	Setup
Room Facilities	Define room facilities (AC, attached bath, WiFi, TV) for each room type	Setup
ALLOCATION & RESIDENTS		
Room Allocation	Assign students to specific rooms and beds with allocation date	Allocation
Room Transfer	Transfer a student from one room to another with history tracking	Allocation
Room Vacate / Checkout	Process student checkout with clearance checklist and dues verification	Allocation
Room Availability View	Visual dashboard showing occupied, vacant and reserved rooms by block	View
HOSTEL FEES & FINANCE		
Hostel Fee Plans	Create hostel fee structures (monthly/semester) linked to room types	Fee
Hostel Challan Generation	Generate monthly/semester hostel fee challans for all resident students	Fee
Hostel Payment Collection	Record hostel fee payments with receipt generation	Payment
REPORTS		
Hostel Occupancy Report	Block-wise and room-wise occupancy rates and vacancy summary	Report
Resident List Report	Full list of current hostel residents with room, block and contact details	Report

Library Management

Book catalog, issue/return tracking, fines, member management

College

University

12
features

FEATURE	DESCRIPTION	CATEGORY
CATALOG MANAGEMENT		
Book Catalog	Add books with title, author, ISBN, publisher, edition, category and copies	Catalog
Book Categories	Organize books into categories (Science, Literature, Reference, Journals, etc.)	Catalog
Book Search	Full-text search by title, author, ISBN or category with availability status	Search
Book Inventory	Track total copies, issued copies and available copies per book title	Inventory
ISSUE & RETURN		
Issue Book	Issue books to students or staff with due date and barcode/QR scan support	Issue
Return Book	Process book return, auto-calculate fine if overdue based on fine policy	Return
Renew Book	Extend due date for an already issued book if no pending reservations	Issue
Book Reservation	Reserve a book that is currently issued so it's held on return	Reservation
MEMBERS & FINES		
Member Management	Register library members (students/staff) with borrowing limits and privileges	Members
Fine Policy	Configure per-day fine amount for overdue books by member type	Config
Fine Collection	Record and collect overdue fines with receipt generation	Fine
Library Reports	Most borrowed books, overdue list, member history, daily issue/return summary	Report

Online Admissions Portal

Public admission form, document upload, merit list, applicant tracking system

10

features

College

University

FEATURE	DESCRIPTION	CATEGORY
APPLICATION FORM		
Public Admission Form	Customizable online admission form accessible without login on institution's portal URL	Public
Program / Department Selection	Applicant selects desired degree program and campus during application	Form
Document Upload	Upload required documents: CNIC, matric certificate, photographs, previous transcripts	Documents
Application Fee Payment	Accept online application fee payment via payment gateway before submission	Payment
Application Tracking	Applicant receives tracking ID to check status of their application online	Tracking
ADMIN PROCESSING		
Application Review	Admin reviews submitted applications with documents, marks them accepted/rejected/pending	Review
Merit List Generation	Auto-generate merit list based on qualification marks and weightage criteria	Merit
Admission Offer Letter	Send acceptance/rejection notification to applicant via email and SMS	Notification
Convert to Student	One-click conversion of accepted applicant to enrolled student with auto-profile creation	Enrollment
Admission Reports	Applications received, accepted, rejected, pending per program and date range	Report

+4

Extra Features — Better than EDUBase

4 additional modules that EDUBase does not have, making your SaaS significantly superior

All institution types

Multi-School / SaaS Mode

- Each school/college = isolated tenant
- Custom subdomain per institution
- Super admin portal for all tenants
- Per-tenant data isolation (tenant_id scoping)
- Subscription billing per tenant
- White-label branding per institution
- Module enable/disable per tenant
- Custom pricing per tenant contract

AI-Based Reports

- AI attendance pattern analysis
- Fee defaulter risk prediction
- Student performance insights
- Natural language report queries
- Automated monthly summary emails
- AI-generated result commentary
- Anomaly detection in finance data

WhatsApp Integration

- WhatsApp Business API integration
- Fee challan delivered via WhatsApp
- Attendance alerts to parents
- Exam results via WhatsApp
- Two-way parent communication
- Broadcast messages to groups
- Template message management

Online Fee Payment

- JazzCash / EasyPaisa integration
- Bank transfer payment gateway
- Parent self-service payment portal
- Payment confirmation auto-SMS/WhatsApp
- Auto-reconciliation with GL ledger
- Online challan PDF download
- Payment gateway transaction logs

Mobile Apps Suite (5 apps)

APP	TARGET USER	KEY CAPABILITIES
Owner's App	School Owner / Director / Principal	KPI reports, fee summaries, attendance overview, profit/loss, staff management, AI insights
Teacher's App	Teachers / Faculty	Mark attendance, enter marks, view class lists, send notifications, communicate with students
Parent's App	Parents / Guardians	Track child's fees, attendance, results, receive alerts, view diary, pay fees online, two-way messaging
QR Attendance App	Admin / Security Staff	Scan student QR codes for gate attendance, auto-notify parents and log entry/exit times

Free SMS
Sending App

Admin Staff

Send bulk individual SMS to parents from mobile, integrates with
main portal SMS system
